Framework for Events Occurring During the COVID-19 Pandemic

October 14, 2021

Updated: February 28, 2022
University of Guelph Framework for Events Occurring During the COVID-19 Pandemic

Preamble:
The purpose of this document is to provide a framework for University of Guelph employees and departments considering hosting in-person or hybrid employee-led, supervised or endorsed internal or external events that use University of Guelph buildings and University managed facilities, outside and inside, including but not limited to those on its Guelph or Ridgetown campuses and research stations. Guelph-Humber will be subject to Humber College requirements and procedures.

Events being hosted in non-University of Guelph buildings or University managed facilities not managed by U of G should have health and safety standards that are equivalent to, or better than, institutional measures (see guidelines section for more information). Environmental Health and Safety can provide guidance on events hosted in non-University of Guelph buildings and non-U of G managed facilities.

It is important to note that until further notice, non-Athletics-related events organized by a Registered Student Organization without an assigned University staff or faculty supervisor or leader (who is required to be responsible for supervision of student participants and shall enforce safety procedures) must be approved according to the Student Events & Risk Management (SE&RM) submission process. Submissions will be reviewed by the University’s SE&RM committee.

This document contains key principles to guide event planners, departments, and Colleges in determining whether an event should be hosted. It describes the requirements under O. Reg. 364/20: Rules for Areas at Step 3 and at the Roadmap Exit Step, and further guidance from the University of Guelph to support how an event should be planned.

It should also be recognized that, due to the changing state of affairs related to the pandemic, this framework may be modified, replaced, or superseded by other plans or directives, as necessary.

Definitions:

Event: All organized indoor and outdoor events and gatherings (e.g., fundraisers, receptions, conferences, celebrations) that use University of Guelph spaces, with the exception of activities that align with an approved research management plan or with events and activities already operating in accordance with an approved College or Departmental Operational Plan.

Visitor: An individual who is not a registered student or an employee paid directly by the University of Guelph.

Approval Process
- Deans, AVPs and Department Heads are responsible for determining which events should proceed. If the event being planned does not have a Dean/AVP or Department Head to provide approval, details of the event should be submitted to the Return to Campuses Steering Committee at r2w@uoguelph.ca.

Event Principles
The following event principles must be considered when determining whether an event should be hosted. The event:
Aligns with current Government reopening guidelines, Wellington-Dufferin-Guelph Public Health requirements and guidelines and University of Guelph health and safety measures.

Considers the number of visitors using University of Guelph buildings and University facilities, both indoor and outdoor, with the goal of limiting visitors to campus.

Considers the impact of the event on building capacity and traffic flow.

Considers community health and safety concerns about the event size, space, etc., being hosted at U of G.

Consider any penalties or financial hardship from cancelling the event.

Consider any strategic or reputational risks for hosting or non-hosting the event.

Guidelines:

Contingency Planning

- All events being planned should have a contingency plan in place. Due to the continually changing nature of the COVID-19 pandemic, the possibility exists that the province or local public health may change guidelines.

- Departments and units can plan for in-person summer and fall 2022 events with caution.

Capacity Limits

As of February 17, 2022:

- Generally, indoor events should be limited to 50 people.

- The room used for the event should be large enough that all attendees can maintain at least two metres of physical distance at all times.

- Individuals wanting to host an event with more than 50 people should contact hospitality services at spevent@uoguelph.ca or individual booking units (i.e. Athletics, University Centre).

- These guidelines will remain in place until March 18, 2022.

As of March 18, 2022:

- Capacity limits for indoor events will be removed; however, the event principles contained in this framework continue to apply.

Proof of Vaccination

As of February 17, 2022:

- Required for any indoor events where attendance cannot be strictly limited to students, faculty and/or staff.
  - Event attendees, with the exception of children under the age of 12, are required to show proof of being fully vaccinated, proof of a valid exemption (i.e. enhanced vaccination exemption certificate with QR code), or, for students, faculty and staff, proof of a University-approved exemption based on medical or religion/creed grounds AND government issued ID to access event spaces.
  - More information on proof of vaccination, including information on the Verify ON App to validate proof of vaccination, can be found on the Government of Ontario’s January 27, 2022 Proof of Vaccination Guidance under the Reopening Ontario Act, 2020 document.
  - Volunteers must submit their proof of vaccination information to the University of Guelph’s Alternate Proof of Vaccination and Exemption System. Event organizers must also check proof of vaccination of any events volunteers.
    - An individual is considered fully vaccinated if they have received:
• The full series of a COVID-19 vaccine authorized by Health Canada, or any combination of such vaccines,
• One or two doses of a COVID-19 vaccine not authorized by Health Canada, followed by one dose of a COVID-19 mRNA vaccine (Moderna or Pfizer) authorized by Health Canada,
• Three doses of a COVID-19 vaccine not authorized by Health Canada; and,

They received their final dose of the COVID-19 vaccine at least 14 days before providing the proof of being fully vaccinated.

As of March 1, 2022
• Checking for proof of vaccination at events will be eliminated. Active Health Screening will continue to be required. Visitors must attest in the University of Guelph COVID-19 Screening Form that they are fully vaccinated.

Active Health Screening
• The person responsible for the event must:
  o ensure that all participants complete the University of Guelph daily screening form before attending the event and show the event organizer or designate their green checkmark indicating they are permitted to be at the University of Guelph location (active screening).
  o advise staff/volunteers to report illness to their supervisor/managers and to stay home if sick.

Masks, PPE, and Cleaning Supplies
• Participants must wear a mask that covers their nose, mouth and chin, unless they are entitled to any of the exceptions outlined by the Government of Ontario and are complying with University of Guelph practices. Proof of exemption from mask wearing is not required to access campus events. Students, faculty and staff must wear a medical-style mask.
• Masks may be temporarily removed to consume food or drink.
• For individuals providing service in an indoor area, e.g., employees and volunteers, appropriate personal protective equipment that covers the eyes, nose must be worn if the person
  o is required to come within two metres of another person who is not wearing a mask or face covering, for example, when screening patrons; and
  o is not separated by plexiglass or some other impermeable barrier.
• Hand cleaning/sanitization supplies for participants must be provided.

Signage
• It is recommended that COVID-19 Self-Assessment and What to Do When You are Sick signage, which can be downloaded from the Physical Resources website is posted.

Food and beverage
• Food and beverage must be supplied by internal campus providers on the Guelph campus or by a professional caterer at other locations.

Event Registry
• Until further notice, events must be submitted to the University of Guelph Events Registry to track the number of events occurring at the University of Guelph.

Waivers
The University of Guelph COVID-19 waiver is no longer required for University of Guelph events.
